

## **Eco International Factory**

### **From Nature to Innovation**

At Eco International Factory, we lead the charge in providing eco-conscious packaging and printing solutions for a rapidly evolving world. Founded in 2015, we have grown from plastic manufacturing into a full-fledged provider of sustainable paper and print products serving clients locally and across borders.

# COMPANY OVERVIEW

Pioneers in Sustainable Production

## Our Journey and Evolution

Founded in 2015, Eco International initially focused on plastic manufacturing. Recognizing the critical need for global sustainability, we strategically evolved our raw materials and processes.

**Since 2020**, we have significantly expanded into the paper and print industry, creating a comprehensive portfolio that balances necessary materials with ecological responsibility.

Today, we stand at the intersection of innovation, design, and ecological responsibility offering both plastic (where needed) and paper-based solutions, with a deep commitment to reducing environmental impact in every step of our processes.

# Our Core Values: Driving Sustainable Excellence

These five pillars define our operations and commitment to our clients and the planet.

## Sustainability & Responsibility

Deep commitment to minimizing environmental impact through biodegradable materials and recycled content.

## Quality & Craftsmanship

Delivering high-grade, durable, and visually appealing packaging and printed materials.

## Innovation & Adaptability

Continuously integrating new technologies and materials to meet evolving client and ecological demands.

## Customer-Centric Service

Fostering strong partnerships and providing tailored solutions from concept to delivery.

# Why Choose Eco International?

**100%**

## **Virgin Paper**

Water based inks and eco-friendly coatings.

**80+**

## **Material Options**

Variety of paper and plastic materials, including recycled and biodegradable options.

**1**

## **Day Lead Times**

Fast turnaround for smaller, urgent orders and rapid sampling.

**1K**

## **Instant Quoting**

Efficient online quoting system supporting orders from 1 part up to 1,000 parts.

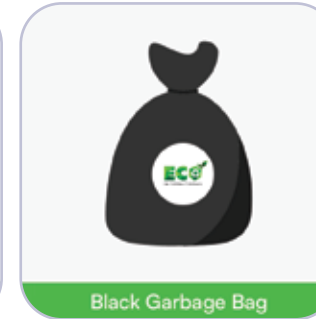

# Comprehensive Printing & Material Capabilities

## Materials & Finishes

- **Sustainable Stock:** Recycled paper, kraft paper, biodegradable/compostable materials.
- **Eco-Inks:** Water based ink (Food grade) and non-toxic, eco-friendly coatings.
- **Premium Customization:** Over 35 finishes, including soft-touch, foil stamping, and varnishes.
- **Plastics:** Specific polymer solutions only where strictly necessary for function and durability.

# Streamlined Order Workflow

From design concept to final delivery, our structured process ensures efficiency, quality control, and client satisfaction.

## Design Submission

Client submits design brief or request via our contact platform.

## Material & Method Consultation

Our team reviews requirements and suggests optimal eco-conscious materials and printing techniques.

## Sample & Approval

Rapid prototyping and sample production for client review and final sign-off.

## Production & QC

Full production run followed by stringent quality control checks, packaging, and fulfillment.

## Delivery

Timely delivery of final products, locally or internationally.

# Our Portfolio

## DipnDip Packaging

We delivered packaging that combined visual appeal with a reduced environmental footprint.

## Swaikhat Packaging

We had the pleasure of working with Swaikhat to print custom packaging bags.

## Health Studio Packaging

We had the pleasure of working with Health Studio to develop custom packaging bags.

# A Showcase of Sustainable Impact

## CAF Packaging

We delivered packaging that combined visual appeal with a reduced environmental footprint.

## Lina's & Dina's Packaging

We had the pleasure of working with Lina's & Dina's to print custom packaging bags.

## Mishref by Dose

We delivered packaging that combined visual appeal with a reduced environmental footprint.

# Trusted By Leading Brands

We proudly collaborate with clients across the GCC and internationally in retail, hospitality, food & beverage, and health sectors.
